

# Our Core Values

## Prioritize People

We recognize the individuality of each person and meet them where they are; our actions and decisions reflect our respect and care for others, from our students to our colleagues and partners.

## Initiate & Innovate

We courageously challenge the status quo, pushing boundaries and willingly taking the first step to create innovative and transformative solutions that drive change for the greater good.

## Lifelong Learning

We continuously seek to learn, whether through curiosity, our work with one another, formal instruction, or our own successes and failures, because growth through learning is essential to our collective success.

## Creative Collaboration

We are stronger, smarter and more effective when we work together and include diverse perspectives.

## Purposeful Partnerships

We listen to and support our customers and partners, and celebrate their successes, because our partnership unlocks the potential to make a positive impact on education together.

## Considered Confidence

We know that change is hard, but believe we can find a path forward with data-driven, iterative, and inventive problem-solving.
